Nutrition Rehabilitation Center (NRC)

Challenges	Proposed solutions
<p>Admission of Non-SAM/MAM children in NRCs on referral by AWW. Adds to poor management of actual SAM children</p> <ul style="list-style-type: none">If these children are refused admissions, future referral from field stopsThere are no protocols for managing non-SAM children in NRC	<ul style="list-style-type: none">Only cases of SAM certified by ANM/CHO/MO in field should be sent to NRC (This activity should be undertaken every fortnight at AWC).In case Non-SAM child is referred to NRC, the child should not be refused admission, while should be provided investigations, multivitamin and IFA supplementation, antibiotics if any illness and admitted to NRC for couple of days where mother can be counselled for better child care practices and then discharged.Entry of such admissions should be maintained in separate register in simple format.
<p>Lost to follow up on discharge from NRC</p>	<ul style="list-style-type: none">Linking all children discharged from NRC with CMAM programme for admission and weekly follow up for 16 weeks. Joint guidance to be issued by Health & DWCD.
<p>Data feeding difficulties in field despite of regular NRC MIS training</p>	<ul style="list-style-type: none">Training of Staff Nurses/FD for data entry in NRC portal – were planned.

Nutrition Rehabilitation Center (NRC)

Additional suggested interventions for strengthening FSAM programme:

1. AIIMS Raipur to act as State Centre of Excellence for management of children with SAM and support state NRCs in following ways:
 - a. SMART Unit at AIIMS Raipur will act as tertiary referral centre for all complicated (medical, surgical, oncological) cases of SAM
 - b. Tele-monitoring unit is being established at AIIMS Raipur. Medical officers from Telemonitoring unit will take tele rounds for 15 NRCs per day and provide technical guidance on case management and follow up on improvement for every child admitted to NRCs.
 - c. Any NRC facing issue with case management can contact telemonitoring centre on need basis and get support
 - d. Team from SCoE-4N will undertake physical monitoring visits to NRCs to strengthen quality of services and provide hands on training as necessary.
1. SAM management units/beds should be reserved in every pediatric ward of medical colleges.
 - a. All children between 0-5 years admitted to pediatric wards should be screened for SAM
 - b. If a child is found to have underlying SAM, the case should be managed as per NRC protocols for medicines and nutrition rehabilitation
 - c. Medical colleges should share their SAM data with State.
2. Monitoring of NRCs using standard checklist and digital tools.

AMB_% of Children 6-59 months given 8-10 doses of IFA syrup every month

As per HMIS April 22 to March 2023

Pradhan Mantri National Dialysis Program (PMNDP)

S.No .	Indicator	Target – 2022-23	Achievement	Target – 2023-24 (April-May)	Achievement
1	Districts Covered under PMNDP	28	22	33	22
2	Number of Hemodialysis session	57600	46679 (81%)	62,425	12569 (20%)

Issues

- Dialysis services is under utilized currently average is 2.6 dialysis session per machine per day.
- Some hospital running dialysis services under PMNDP & DMF in same roof.
- Registration of patients and Dialysis session is less in PMNDP portal.
- No monitoring of dialysis services & PMNDP Portal entry as per MOU with agency by Hospital Administration.
- Lack of awareness of dialysis service in hospital.

National Oral health programme (NOHP)

NATIONAL ORAL HEALTH

In FY.2022-23,

overall 121% OPD services given to the patient in 28 districts.

25 districts (9%) have achieved more than 90% to provide OPD services to the patient.

3 districts (Durg, Raigarh,Sukma,) fall between 80-75%.

Almost all districts were done good.

Status of OPD to the patient (*April to May 23-24*)

Yearly target set on the basis of IPHS norms 2022, which is of 20 OPD /day/facility).

Districts –Dhamtari, Bilaspur, Koriya (9%)are achieved more than 90%

Districts-Balrampur, Jashpur, Kanker, Mahasamund,Saranggarh,Kawardha

districts (18 %) were achieved 80- 75% in OPD services given to the patient.

23 districts (69%) achieved less than 75%, have expected to achieve given target in upcoming quarters.

Narayanpur reported zero OPD in last 2 months.

Sakti, Dantewada, Bijapur – poor performing districts.
